SUMMARY

A driven **Computer Science and Engineering student** at **Maharaja Agrasen Institute of Technology, Delhi**, specializing in **full stack development, software engineering, and game development**. With proficiency in **Java and AI**, and a problem-solving mindset sharpened by qualifying JEE Mains and Advanced, I aim to blend creativity with technology to craft impactful, user-centric solutions. A **quick learner and collaborative team player**, I am dedicated to continuous growth in the evolving tech landscape.

Explore my projects and experience at My Portfolio.

EDUCATION

Maharaja Agrasen Institute of Technology

Bachelor of Technology in Computer Science

Aug. 2024 – Present

Rohini, Delhi

Allen Carrer Institute Pvt Ltd

High School

Apr. 2022 – May 2024

Kota, Rajasthan

EXPERIENCE

Startup Sphere

Technical Team Member

Aug 2024 – Present

Rohini, Delhi

- Collaborated with a dynamic technical team to develop and maintain web-based solutions for society events and initiatives.
- Contributed to the planning and execution of coding competitions, hackathons, and tech workshops, enhancing member engagement.
- Actively participated in cross-functional projects, gaining hands-on experience with modern development tools and collaborative workflows.

Mood Indigo, IIT Bombay

Contingent Leader/Campus Ambassador

Dec. 2024 Edition

Bombay

- Led a contingent of over many students, coordinating participation across cultural, technical, and literary events at Asia's largest college cultural festival.
- Served as the primary liaison between IIT Bombay's organizing team and campus participants, promoting events, managing registrations, and ensuring smooth coordination.
- Spearheaded promotional campaigns and outreach activities on campus, significantly increasing student engagement and institutional visibility at Mood Indigo 2024.

PROJECTS

NyaySetu – AI-Powered Legal Assistance | *React.js, Node.js, LangChain, NLP, MongoDB*

March 2025

- An AI-driven platform bridging citizens with legal services through multilingual support, smart document analysis, case outcome prediction, and access to verified legal professionals.
- Integrated LangChain and NLP models to enable intelligent analysis of contracts and legal documents, along with predictive insights on case outcomes.
- Built a secure legal consultation marketplace with a verified lawyer directory, improving access to reliable legal services for users nationwide.
- Explore the source code and live version of NyaySetu – AI-Powered Legal Assistance on [Github](#) and access the deployed platform here at [Deployed link](#).

The Neuro Impact | *React.js, AI, Firebase Auth, Mysql*

January 2025

- An inclusive digital platform designed to support, educate, and empower neurodivergent individuals through personalized learning, awareness, and community engagement.
- Built an accessible web interface with features like OpenDyslexic font toggle, color scheme options, and theme customization to enhance user experience for neurodivergent users.
- Integrated community features including awareness events, testimonials, and support channels to foster a connected, informed, and inclusive environment.

- Explore the source code and live version of The Neuro Impact – Empowering Neurodivergent Communities on [Github](#) and access the deployed platform here at [Deployed link](#).

LifeFlow – Smart Blood Bank & Donation System | *React.js, AI, Firebase Auth, Mysql* **December 2024**

- An intelligent platform designed to streamline blood donation and availability by connecting donors, banks, and recipients with real-time data and emergency alerts.
- Built a location-based system to display nearby blood donation camps, blood banks, and real-time blood stock availability using Google Maps API and MongoDB geospatial queries.
- Integrated emergency notification features for urgent blood requests, enabling quick donor response and hospital coordination.
- Explore the source code and live version of LifeFlow – Smart Blood Bank & Donation System on [Github](#) and access the deployed platform here at [Deployed link](#).

TECHNICAL SKILLS

Languages: Python, Java, C, HTML/CSS, TypeScript, JavaScript, SQL

Full Stack: React.js, Tailwind CSS, Node.js, Express.js, REST APIs, JWT Authentication, WebSockets

Database: MongoDB, Firebase Firestore, MySQL, Supabase

Developer Tools: VS Code, Git, GitHub, Google Cloud Platform (GCP), Firebase

Technologies/Frameworks: OpenAI API, LangChain, Git, GitHub Actions

Other Skill: Agile Methodology, UI/UX Design (Figma), Natural Language Processing (NLP)

VOLUNTEERING / EXTRACURRICULAR

Hack for Impact, IIT Delhi

March 2025

Participant – Technical Hackathon

IIT Delhi

- Developed NyaySetu, an AI-powered legal assistance platform, aimed at bridging the gap between citizens and legal services through multilingual support, smart insights, and verified legal professionals.
- Utilized React.js, Node.js, and OpenAI API to create a fully functional prototype that provides instant legal assistance, case document analysis, and legal consultation services.
- Collaborated with a team to design and deploy the platform within a 36-hour hackathon timeframe, receiving recognition for innovation and impact from mentors and judges.

eDC (Entrepreneurship Development Cell) IIT Delhi

Oct 2024 - Nov 2024

Campus Ambassador

IIT Delhi

- Represented eDC IIT Delhi, promoting entrepreneurial spirit and startup culture among peers through outreach and awareness initiatives.
- Organized and marketed workshops, startup challenges, and webinars to drive student participation in national-level entrepreneurial events.
- Built connections with budding entrepreneurs and mentors, facilitating a network for idea exchange, collaboration, and innovation.

Cognizance, IIT Roorkee

Sept 2024 - Oct 2024

Campus Ambassador

IIT Roorkee

- Acted as the official liaison between Cognizance IIT Roorkee and campus communities, promoting one of India's largest technical fests.
- Drove student engagement by coordinating registrations, circulating event information, and organizing promotional campaigns.
- Enhanced event visibility and participation through strategic outreach, digital marketing, and on-ground initiatives.

GirlScript Summer of Code

Jul 2024 - Sep 2024

Open Source Contributor

- Contributed to multiple open-source projects by fixing bugs, enhancing features, and writing clean, maintainable code.
- Collaborated with mentors and fellow contributors through GitHub, pull requests, and issue tracking to meet project goals.
- Strengthened skills in version control, collaborative development, and issue resolution across real-world codebases.

HackwithMait5

Sept 2024

Participant – Technical Hackathon

MAIT Delhi

- Developed Zoder eCommerce, a fully functional online store platform during a 24-hour hackathon, focusing on providing seamless shopping experiences.
- Utilized React.js, Node.js, and MongoDB to create an intuitive user interface and a robust backend for product management, cart functionality, and user authentication.
- Collaborated with a team to design and implement features such as product filtering, order tracking, and real-time stock updates, receiving recognition for innovation and technical excellence.

CERTIFICATES & ACHIEVEMENTS

Esummit, DTU – Business Plan Certificate

Jan 2025

- Awarded for developing a comprehensive business plan and pitching a startup idea to industry experts during the summit.
- Here is the deployed link for the Certificate of Appreciation

National Road Safety Hackathon 2025, NHAI & HOAI

Feb 2025

- Participated in a national-level hackathon focused on improving road safety using technology and innovation. Collaborated with a team to design a smart solution addressing real-world transportation and safety challenges.
- Here is the deployed link for the Certificate

DataQuest, IIT Kharagpur

Feb 2025

- Awarded for excelling in data-driven problem-solving and completing challenges focused on data analysis, algorithms, and machine learning.
- Here is the deployed link for the Certificate

BECon'25, IIT Delhi

Feb 2025

- Participated in BECon'25, contributing to discussions and activities related to business development, entrepreneurship, and innovation in the tech space.
- Here is the deployed link for the Certificate

Nation Building, Nation With Nammo

Nov 2024

- Actively contributed to initiatives focused on nation-building, community development, and promoting national progress through collaborative efforts with key organizations
- Here is the deployed link for the Certificate

HackWithMait5

Oct 2024

- Participated in a technical hackathon, where I developed Zoder eCommerce, a fully functional online store platform, using React.js, Node.js, and MongoDB to deliver a seamless shopping experience.
- Here is the deployed link for the Certificate
